COVID 19: SUPPORT & ADVICE

The Farming Health Hub works with the public, private and voluntary sector to provide Physical, Mental and Business Health advice, support and guidance to farming and rural communities.

With the impact of the COVID-19 pandemic affecting every area of our day to day lives, we want to provide people in farming and those living and working in rural communities with information about the support which is available to them and details of how to access it.

The information contained in this leaflet was accurate at the time of publication. However we are aware that Government advice and guidance is constantly changing, and a number of organisations, including members of the Farming Health Hub, are calling for additional support to be made available to farming and rural communities. We will provide further updates if this happens.

Organisations listed are primarily Cornwall based and will only support people living in Cornwall. However, there are some listed who provide advice and guidance at a national level. (N) denotes national and (L) denotes local.

One particularly useful source of support and guidance can be found at:
BUSINESS HEALTH

What support is currently available for businesses and employees?

The information below provides details of the current support which is available for all businesses, including access to funding, grants and financial support.

The Government website contains links to information to help with Business Health concerns. This was updated in April 2020. This covers paying employees, sick pay; tax; business rate relief; support grant funds; support for the self-employed; small and medium sized businesses. It also provides up-to-date information on the furlough scheme.

There is also specific COVID 19 information on the websites of local organisations:

- Cornwall Council Covid 19 Support (N)
- NFU - Coronavirus Updates (N)
- Cornwall Citizens Advice (L)
- Cornwall & Isle of Scilly Growth Hub (L)

We know that not everyone has digital access and so have also provided details of alternative methods of finding help.

PHYSICAL HEALTH

During these difficult times it is vitally important to look after yourself, your family and your staff.

Please make sure you follow the Government guidance regarding social distancing and cleanliness. Ensure that you take regular exercise (not just through working); take regular breaks and check that you are eating regularly and healthily.

- If you run a farm shop ensure that hygiene measures are in place for your staff as well as people who shop there. This means ensuring everyone stays at least 2 metres (6ft) apart at all times. Wash your hands frequently – especially when handling goods, bags, etc.
- Remember that you can spread the virus even if you don’t have symptoms
- To help yourself stay well while you are at home:
  - Stay in touch with family and friends over the phone or on social media
  - Life is busy but try and find time to use your farm and local area to take a daily walk.

Who to contact for advice and help:

- **NHS helpline:** [www.nhs.uk](http://www.nhs.uk) or telephone: 111 (N)
- **Healthwatch Cornwall:** 01872 273501 (L)
- **Cornwall Council Public Health** - 01872 266383 (L)
- **Drink Line:** 0300 123 1110 (N)
- **Alcoholics Anonymous:** 0800 9177 650 (N)
- **Farm Safety Foundation:** 01789 416065(N)
MENTAL HEALTH

It is also vitally important to look after your mental health. During these unprecedented times we are all having to make adjustments in our daily lives. This will impact on individuals in different ways.
